FLAREX / METTANICHE GROUP

Launch positioning through to customer activation

THE COMMERCIAL PROBLEM

Connect acquisition, onboarding and KYC with active customers, rather than review campaign response in isolation.

+15%

Activation improvement / FlareX

10-20%

Funded conversion improvement / trading-platform portfolio

MY OWNERSHIP

Launch positioning and landing-page briefs; lifecycle segmentation and triggers; partner acquisition; specialist and agency management. Approximately US$600,000 annual acquisition spend.

Where campaign, product and CRM decisions connect

A portfolio map of the stages I worked across. The original CRM interface is not reproduced here.

01

Acquisition

Paid, introducing-broker and partner channels

>

02

Onboarding & KYC

Segmentation, behavioural triggers and product education

>

03

Funding & activation

Review progression into meaningful customer action

>

04

Ongoing engagement

FlareX EDU, Telegram, referrals and partner communication

MEASUREMENT

GA4, Amplitude and Salesforce were used to review onboarding and KYC drop-off. Braze and HubSpot journeys were designed with IT handling technical implementation.

Different propositions. A connected growth remit.

FlareX	Crypto launch, positioning, education, onboarding and referrals.
RCG Markets	Brokerage customer journeys and introducing-broker / partner acquisition.
Space Markets	Brokerage positioning, customer communications and partner channels.
Comit Capital	Prop-trading evaluation/challenge context and a distinct trader journey.

OPERATING RHYTHM

Weekly review of Meta, Google Ads and partner-channel spend against downstream conversion. Set priorities for a Digital Marketing Manager, agencies and product/developer stakeholders.
